

First Aid Requirements

Adult Family Homes must have **emergency medical supplies** on-hand for the application of basic first aid during an emergency or disaster in a sufficient amount for the number of residents living in the home. In addition, Adult Family Homes must replenish the emergency medical supplies as they are used and have a first aid manual.

First aid requirements

- Make sure that first-aid personnel are available to provide quick and effective first aid
- Make sure appropriate first-aid supplies are readily available

Emergency eyewash requirements

- Make sure emergency washing facilities such as emergency eyewash stations are functional and readily accessible
- Inspect and activate your emergency washing facilities
- Make sure supplemental flushing equipment provides sufficient water

Availability of First Aid Supplies

- Make sure appropriate first-aid supplies are readily available
- Employers must make sure that first-aid supplies are:
 - Easily accessible to all of your employees.
 - Stored in containers that protect them from damage, deterioration, or contamination.
 - In clearly marked containers, not locked, but may be sealed.
 - Able to be moved to the location of an injured or acutely ill worker.
